(14) The Additional Personal Leave is in addition to the staff member's accrued Personal Leave and is available to a staff member prior to utilising their accrued Personal Leave entitlements.

(15) A staff member who utilises all of the additional 10 days within each calendar year for any specific circumstance described may request further Personal Leave for that circumstance from their accrued Personal Leave. A staff member may request the Additional Personal Leave for each relevant circumstance.

## **Other Forms of Leave**

### **Other Forms of Paid Leave and Leave Without Pay**

(16) Where all Personal Leave entitlements have been exhausted, staff may apply for available accrued Annual Leave

or Long Service Leave, or may apply for Leave Without Pay for personal reasons. The responsibility for a request to use available Annual or Long Service Leave rests with the individual staff member. If no such request is received, the staff member will be placed on Leave Without Pay when Personal Leave credits are exhausted.

### **Extraordinary Leave**

(17) Where a staff member has exhausted all paid leave entitlements, and because of extraordinary circumstances, requires further paid leave, the University may grant an amount of paid Extraordinary Leave as the University decides is warranted in accordance with the [Extraordinary Leave Policy](#).

### **Long Term Illness, Injury or Medical Condition**

(18) A staff member with a long-term illness, injury or medical condition may elect to convert the period of the absence to half pay, subject to the provision of a medical certificate to support such long-term absence. In such circumstances, the staff member will be regarded as a part-time staff member for the purposes of leave accruals and superannuation contributions.

(19) Where a staff member undertakes half pay Personal (sick) Leave, their normal superannuation contribution and the University's contribution will reduce to 50 percent. Alternatively, the staff member may elect, in writing, to maintain and pay their full contribution and top-up the University contribution from 50 percent to the full-time level in order to maintain their normal contributions.

### **Medical Assessment**

(20) Where a staff member has exhausted their Personal (sick) Leave entitlement, and/or the staff member has been absent either for an extended period of time or is absent on a regular basis on Personal (sick) Leave, and/or in circumstances where the University may have a doubt about a staff member's wellbeing, it is appropriate for the University to seek information about a staff member's health.

(21) The University may request permission from the staff member to seek information from their treating doctor and/or specialist/s. In addition, the University may require the staff member to attend an independent medical assessment to ascertain the staff member's capacity to perform the duties of their position. The University will choose the medical practitioner to conduct the medical examination at the expense of the University. The University will give the staff member written notice of not less than four (4) weeks, except in exceptional circumstances, that a medical assessment is required.

(22) The [Medical Assessment Policy](#) provides further information regarding procedures for arranging access to medical information about a staff member's health and capacity to perform the inherent requirements of their position.

## **Section 4 - Approvals**

(23) An application for Personal Leave must be submitted for approval by the appropriate delegated officer in accordance with the procedures set out in Section 5 of this policy. Information on delegated officers for leave approvals can be found in the [Delegations of Authority Policy and Register](#).

## **Section 5 - Procedures**

### **Notice and Notification of Absence to Supervisor**

(24) A staff member is required to provide the University with notice of taking leave as soon as practicable. Such notice will be accompanied by appropriate evidence in accordance with clauses (26) to (39).

(25) If a staff member fails to make contact within a reasonable timeframe (normally one (1) day), the supervisor will make arrangements to contact the staff member as set out in the [Abandonment of Employment Policy](#).

## **Evidence Requirements**

### **Personal Leave - medical reasons**

(26) A staff member who is absent on a period of leave for reasons associated with personal illness, injury, medical condition or procedure, for more than three (3) consecutive working days is required to provide the University with appropriate evidence in accordance with clauses (31) to (39).

(27) A staff member may be required to provide proof of medical condition(s) for absences of less than three (3) consecutive working days in certain circumstances, such as:

- a. when the staff member has a pattern of recurring absences on personal sick leave; or
- b. when there is evidence that a staff member is not using personal leave for its proper purpose and notification has been provided.

The requirement for such notification will be reviewed after six (6) months.

### **Personal Leave - carer responsibilities**

(28) A staff member who is absent on a period of leave because they are required to provide care or support to a member of their immediate family, child or grandchild, or a member of their household or elder for three (3) or more consecutive working days, is required to provide proof of the illness or injury to the University in the form of a complying medical certificate, as outlined in clauses (31) to (39).

(29) If it is not reasonably practical for the staff member to provide a medical certificate, a Statutory Declaration by the staff member must be provided.

(30) Within the Statutory Declaration, staff member may be required to confirm that:

- a. they are the carer; and
- b. the person receiving care is a member of their immediate family, child or grandchild, a member of their household or elder.

## **Evidence Requirements and Medical Certificates**

(31) A staff member is required to provide to the University with such evidence as would satisfy a reasonable person that the leave is being used for a purpose outlined in clause (12) (for example, a medical certificate for themselves or their family member requiring care). In the absence of such proof, the period of absence from duty will be without pay or, at the request of the staff member, will be deducted from their annual leave credits.

(32) Where an absence is for personal sickness for a period of more than three (3) days, applications for Personal leave must be supported by a medical certificate.

(33) Medical certificates will be accepted from a registered health practitioner or registered medical practitioner where the reason for leave relates to their area of expertise.

(34) Medical certificates will also be accepted from Pharmacists, however, restricted to certificates for illness or injury that the Pharmacist is qualified to issue which are normally restricted to two (2) days or less. For the purposes of this policy a Pharmacist is not considered to be a medical practitioner.

(35) A staff member must not return to work if they have a medical certificate declaring that they are unfit for work during that period. If recovery is earlier than expected, the staff member must obtain a certificate of clearance to work

from a registered health or medical practitioner. The certificate of clearance must be provided to their supervisor prior to the staff member returning to work.

(36) If the University believes that the medical certificate provided by a staff member does not comply with clauses (31) to (39), the staff member will be given a copy of this Policy and will be asked to provide an amended certificate within a specific timeframe.

(37) The University may contact the registered health practitioner or registered medical practitioner to seek verification of a medical certificate.

(38) If a complying medical certificate is not provided within the specified timeframe, the absence will be treated as leave without pay or another form of leave, if available, and if requested by the staff member.

(39) If it is not reasonably practical for the staff member to provide a medical certificate, a Statutory Declaration by the staff member must be provided.

### **Applying for Leave and Submitting Documentation**

(40) A staff member must submit their application for Personal Leave via Staff Connect, indicating the type of Personal Leave required. Where, for example, a staff member is on a period of Personal (sick) leave for more than three (3) consecutive working days supporting documentation in accordance with clauses (31) to (39) must be included in their application for leave. It is the responsibility of the staff member and supervisor to ensure that a staff member's leave requests and approvals are registered on Staff Connect.
