Section 2 - Policy Statement

(2) Subject to taxation requirements associated with University salary packaging arrangements, a staff member will not be out of pocket as a result of incurring expenses associated with the following:

- b. maintaining professional registration where it is a condition of their position and employment with the University.

Section 3 - Policy Purpose

Section 4 - Application of Policy

University Business Expenses

(4) This Policy applies to all staff of the University who incur expenses arising out of University business. The amounts payable under Section 10 – Schedule 1 of this Policy will be reviewed by the University from time to time to ensure they remain consistent with the applicable [Australian Taxation Office](#) Rulings.

Professional registration

(5) Clause 2.10.2 of the [ACU Staff Enterprise Agreement 2022-2025](#) states the following:

- a. "Where a staff member is required to maintain professional registration as a condition of their position with the University, the University will reimburse that staff member for the cost of maintaining that registration, including the reasonable cost of any mandatory continuing professional development (howsoever called), associated with maintaining professional registration, where it is a condition of their position and employment with the University".

(6) A staff member may be eligible reimbursement of expenses if:

- a. the requirement to maintain professional registration is specified in the staff member's position description or contract of employment; and / or
- b. professional registration is a [TEQSA](#) or professional accreditation requirement; and / or
- c. the staff member has been required to provide evidence of professional registration to their work unit or the University.

(7) The expenses that can be reimbursed include:

- a. costs incurred to maintain the required registration, for example, fees paid to maintain the registration (e.g. annual membership fees), and
- b. reasonable costs associated with mandatory training and / or professional development required to maintain registration.

Section 5 - Approvals

Expenses arising out of University business

(8) A staff member must obtain prior approval from their nominated supervisor before incurring an expense on the behalf of the University.

Expenses associated with maintaining professional registration

(9) The nominated supervisor is authorised to approve expenses associated with required registration, subject to the University's financial delegations as set out in the [Delegations of Authority Policy and Register](#).

Section 6 - Procedure

(10) A staff member who is required by the University to travel on University business or who incurs an expense arising out of University business, will be reimbursed in accordance with the rates and conditions set out in Section 10 – Schedule 1 of this Policy.

(11) A staff member, who incurs expenses arising out of University business, should seek reimbursement following expenditure. Where a staff member, without a purchase card, is undertaking international travel on behalf of the University, a cash advance for anticipated expenses may be requested. In either of these circumstances, tax receipts and / or invoices must be presented to account for all expenses incurred. If expenditure is incurred whilst overseas on University business, appropriate documentary evidence must be presented to account for all expenses being claimed.

Section 7 - Expenses Associated with Maintaining Professional Registration

(12) Before a staff member incurs expenses associated with maintaining professional registration, they should discuss the registration requirements and related continuing professional development with their supervisor. The staff member and supervisor will consider:

- a. whether the registration is a requirement of their position; and
- b. appropriate options for fulfilling registration requirements including, in the case of continuing professional development, the training and development options offered by the University. Wherever possible, it is expected that professional development requirements will be met using the University programs and resources available

to staff.

(13) A staff member who incurs expenses associated with maintaining required professional registration in accordance with this Policy, should seek reimbursement following expenditure. The relevant accompanying supporting documentation will include receipts for payment of professional registration fees (e.g. annual registration fee) and / or other costs (e.g. mandatory professional development). The staff member may also be asked to provide the following additional information:

- a. Evidence that professional registration is a requirement of their position, for example, position description, contract of employment, extract from TEQSA or professional accreditation documents, communication from a supervisor or manager, etc.
- b. Documentation from the relevant professional body / organisation which sets out professional registration requirements and costs, including requirements for mandatory professional development, if this is claimed.
