

Internal Audit Policy

Section 1 - Purpose

(1) This Policy reflects ACU's commitment to provide an independent, objective assurance approach to evaluate and improve the effectiveness of risk management, control, and governance processes across Australian Catholic University (ACU).

(2) This Policy should be read in conjunction with the [Internal Audit Charter](#).

Section 2 - Introduction

(3) Internal Audit is an independent, objective assurance service designed to add value and improve an organisation's operations. It helps ACU accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes. Audits are scheduled throughout the year depending on several factors, such as peak business periods, reliance by the external auditor on internal audit work, availability of key staff members and changes to systems. Internal audit is an outsourced function completed under contract to ACU by an external service provider.

(4) Internal audit is responsible to Senate reporting through the Audit and Risk Committee (ARC).

Section 3 - Internal Audit Operations and Services

(5) Internal audit ensures governance, risk management and control processes are adequate and functioning in a manner to provide a reasonable level of confidence in operations.

(6) A typical review conducted by internal Audit involves a detailed review of a process or function to test processes, systems and controls to ensure they are working as desired.

(7) This testing can be conducted in a variety of ways, including:

- a. observation of procedures in place;
- b. review of documentation;
- c. re-performance of an operation;
- d. Compliance Testing of Transactions; and
- e. Substantive Testing of Transactions.

(8) A report will be produced and shared with the Review Sponsor. This report will set out observations and recommendations for further actions to address issues. This report will be provided to senior management and ARC for their consideration.

(9) The Internal Audit function will apply and uphold principles of integrity, objectivity, confidentiality, and competence as required by the [Code of Ethics - The Institute of Internal Auditors](#).

Section 4 - Authority to Act

(10) Internal Audit is authorised to:

- a. have unrestricted access to records, property and personnel;
- b. maintain sufficient knowledge, skills, experience, and professional certifications to meet the requirements of this Policy and the associated [Internal Audit Charter](#); and

(11) Internal Audit is not authorised to:

- a. perform any operational duties for the University or its affiliates;
- b. initiate or approve accounting transactions external to Internal Audit; or

(12) To ensure that the objectivity of the Internal Audit is not adversely affected, Internal Audit staff shall not develop and install systems and procedures, nor be engaged directly in any other activity which Internal Audit would normally review and appraise.

(13) Internal Audit may provide a consultative role in determining and recommending the standards of control to be incorporated in new systems. Internal Audit should, wherever appropriate, have the status of observer and adviser on any steering committee or review group established for new or existing systems whether manual or automated.
